

ROHITH KUMAR

Full Stack .NET Developer | Azure Cloud Services | Microservices Architect

Mohali, Punjab • +91 9779775909 • rohith.edo@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven **Full Stack .NET Developer with 4+ years of experience** building scalable enterprise applications using ASP.NET Core, C#, Angular, Microservices, and Microsoft Azure. Experienced in designing RESTful APIs, event-driven systems, CI/CD pipelines, and high-performance SQL Server solutions for cloud-native applications. **Strong expertise in Azure Functions, Cosmos DB, Service Bus, authentication systems, and distributed architecture.** Passionate about clean code, SOLID principles, system design, and **delivering high-availability applications in Agile environments.**

WORK EXPERIENCE

Midtown Software *June 2024 – Present*

Full Stack .NET Developer Mohali, India

- Architected and delivered cloud-native solutions using .NET Core, ASP.NET MVC, Azure App Services, and Microservices, improving system reliability and deployment velocity for enterprise clients.
- Designed and optimized SQL Server schemas, indexing strategies, and query performance for high-traffic applications, reducing average query latency by up to 40%.
- Built and maintained RESTful Web APIs integrated with Azure Functions and Azure Service Bus for event-driven, asynchronous processing pipelines.
- Leveraged Elastic Search for full-text search and log analytics, and Cosmos DB (NoSQL) for globally distributed, low-latency data access patterns.
- Participated in Agile/Scrum ceremonies, code reviews, and cross-functional collaboration with QA and DevOps teams to ensure quality releases.

Tech Stack: C#, .NET Core/.NET 8, ASP.NET Web API, Microservices, SQL Server, Azure App Services, Azure Functions, Azure Storage, Cosmos DB, Elastic Search, MVC

Aspirefox *April 2022 – May 2024*

Full Stack .NET Developer Mohali, India

- Developed and maintained full-stack web applications using ASP.NET Core MVC, REST APIs, and Angular, delivering feature releases in Agile sprint cycles.
- Built secure RESTful API endpoints with JWT/OAuth2 token-based authentication, enforcing role-based access control (RBAC) across services.
- Collaborated with frontend teams on Angular-based SPAs, ensuring smooth API integration, responsive UI, and optimized data loading patterns.

Tech Stack: C#, .NET Core, ASP.NET Web API, Microservices, SQL Server, Angular, JWT, REST APIs

KEY PROJECTS

Natgashub | C#, .NET Core, ASP.NET Web API, Microservices, SQL, Cosmos DB, Elastic Search, Azure

- Optimized SQL queries, indexing strategies, and stored procedures, reducing API response time and database latency by 40%.
- Integrated Elastic Search for real-time pipeline data search and Cosmos DB for high-availability, low-latency NoSQL data storage across distributed Azure infrastructure.
- Applied clean MVC architecture to orchestrate data flow between MVC UI, SQL Server, and microservice application layers.

GMAU | Angular, C#, .NET Core, ASP.NET Web API, Microservices, SQL Server, Stripe

- Led migration of a legacy ASP.NET Web Forms monolith to a modern Angular SPA + .NET Core API architecture, significantly improving UI responsiveness, maintainability, and developer velocity.
- Integrated Stripe Payment Gateway to support secure subscription billing, recurring payments, and transaction management in compliance with PCI-DSS standards.
- Designed RESTful APIs and microservices to decouple frontend-backend concerns, enabling independent scalability and future-proof architecture.

CORE COMPETENCIES

ASP.NET Core, C#, .NET 8, Microservices, REST APIs, SQL Server, Azure Cloud, Azure Functions, Azure Service Bus, Cosmos DB, Angular, Entity Framework, JWT Authentication, CI/CD Pipelines, Agile Scrum, SOLID Principles, Clean Architecture, Event-Driven Architecture, Performance Optimization, Distributed Systems

TECHNICAL SKILLS

Languages & Frameworks: C#, ASP.NET Core, .NET 6/7/8, ASP.NET MVC, ASP.NET Web API, LINQ, Entity Framework, ADO.NET, OOPs, Async/Await

Cloud & Azure PaaS: Azure App Services, Azure Functions, Azure Service Bus, Azure Storage, Azure DevOps, Azure SQL, Cosmos DB, Azure Key Vault

Microservices & APIs: Microservices, RESTful APIs, Event-Driven Architecture, Publisher-Subscriber Pattern, JWT Authentication, OAuth2, Clean Architecture, SOLID Principles, Design Patterns

Frontend: Angular, TypeScript, JavaScript, HTML5, CSS3

Databases: SQL Server, Azure SQL, Cosmos DB, Elastic Search, Query Optimization, Stored Procedures, Indexing

DevOps & Tools: Git, Azure DevOps, CI/CD Pipelines, Docker, Swagger, Postman, Agile/Scrum

Others: Dependency Injection, Repository Pattern, MediatR, CQRS, API Gateway, Unit Testing, xUnit/NUnit, Swagger/OpenAPI, Redis Cache, Authentication & Authorization, Azure Monitor, Logging, Exception Handling, Design Patterns, Stored Procedures, Performance Tuning, API Integration, SDLC Lifecycle, Object-Oriented Programming (OOP), Multithreading, Async/Await, IIS

CERTIFICATIONS

Microsoft Certified: Azure Developer Associate (AZ-204) — Preparing

EDUCATION

Bachelor of Technology — Computer Science & Engineering CGPA: 8.7 / 10

Punjab Technical University 2019 – 2023
